

To add a data set to your BEST/BSIERP project
Start at <http://data.eol.ucar.edu/bersea>
login with your user ID and password
click on Datasets

Welcome to BEST/BSIERP Data Set Submission

Hello **Jingfeng Wu!**

BEST and BSIERP Principal Investigators, and researchers associated with a PI's project, can login and submit metadata for data sets for that PI's BEST/BSIERP project. Click on the Project button to see a list of the BEST/BSIERP projects. Click on the Dataset button to see a list of data sets within your own project(s). On the Data Sets page, Clicking on the "Create a New Dataset" will give you a simple form to fill out to provide the metadata to submit a new data set.

- **Investigators**
- **Projects**
- **Datasets** 
- **My Profile**

Click on New Dataset

Dataset List

Title	Project
-------	---------

choose project from dropdown
expand summary box if desired

Provide Metadata for New Data Set
