

Thurs AM Questions & ideas for advances

1. Oil and gas Emission factors; coal bed CH₄; State-to-state differences in emission regulations
2. Primary H₂CO
3. Chem sources/sinks of H₂CO: PBL vs. FT
4. Excess Evaporation/Sublimation from cities
5. Urban GHG emission factors
6. Emissions and chemistry of SO₂ & NH₃
7. Chemical importance of larger VOC not obs by TOGA
8. Residential biomass burning
9. Relative importance of oxidant sources (O₃+hv, HONO, ClNO₂, HCHO) in VOC lifetime, and HCHO source term
