

NASA Instructions

The Badge and Pass Office (BPO) is where you will need to go to get your badge for your stay and is located at the main gate to NASA Langley. A [map](#) is provided on their website and [directions](#) from the hotel have also been created. The BPO is open Monday – Friday from 0630 – 1500.

Remember that when you go to get your NASA badge you will need to bring information that varies depending on your citizenship. Everyone must bring two forms of a government issued ID. A passport, driver's license, social security card, government ID, etc. will all work.

Anyone who is not a born U.S. citizen but claims citizenship must bring proof of citizenship with them (ie, Naturalization Certificate or U.S. Passport). Anyone who is a Lawful Permanent Resident (green card), must have their green card with them. Foreign nationals should bring their passport, visa, and any U.S. issued ID they may have, such as a driver's license.

Once you get on the base you will take an immediate right turn onto Taylor Road and then another right into the parking lot for the hangar.
