

Center for Climatic Research  
NELSON INSTITUTE  
UNIVERSITY OF WISCONSIN-MADISON

***You are Invited!***  
**A Special Open House Event**

hosted by:

**Professor Ankur Desai &  
The CHEESEHEAD Science Team**

*(Chequamegon Heterogeneous Ecosystem Energy-balance Study  
Enabled by a High-density Extensive Array of Detectors)*

Get up close and personal with the science behind weather forecasting. You may have noticed a flurry of activity along Highway 182, the surrounding forests, and sometimes in the air over the past few months. This is part of the 4 month long project called CHEESEHEAD. **Want to learn more?** Come to our public open house. Scientists will be on hand at several locations: the **WLEF-TV tower** Highway 182, the **Field** on the corner of East Road and Highway 182, and on the corner South of 182 on Brimstein Road. From 3:00 – 5:00 pm on Sunday August 18<sup>th</sup> come and observe a **weather balloon launch** from the open field. **Learn about new technologies** and see the **Drones & other instruments** that scientists are using to measure winds, temperature, and humidity by radio, sound and light waves. Also, **Butternut Middle School student scientists** will showcase and demonstrate their work on soil and water sampling on the field grounds.

***Everyone is welcome! Bring the entire family!***

**Sunday, August 18th, 2019  
3:00 - 5:00 pm**

**WLEF-TV Tower  
W4551 WI-182  
Park Falls, WI 54552**
